eRecycling made easy.

VTC is providing you, our Central Coast community, with a safe and secure means to recycle all of your electronics. It's easier than trying to navigate all the regulatory hurdles, security issues and environmental concerns yourself. The solution's here.

Introducing CyclePoint™ from SourceAmerica®, the nation's new eRecycling network that creates sustainable jobs for people with significant disabilities. And VTC Enterprises is a proud member. Just show up to our Earth Day Event and we'll recycle your old tech safely, securely, and responsibly.
